

ACID RECOVERY

Electrically or pneumatically (air) operated Acid recovery unit

Available on 4-wheel dolly of Hydrocart

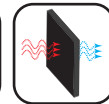

Models ARU-15 STD (TC), ARU-15 MRAC (TC), ARU-15 STD (HY-C) & ARU-15 MRAC (HY-C)

Characteristics:

Hydraulic
Cart

Activated Carbon

Corrosive
recovery

- Heavy duty powder coated hydraulic cart allows for unit to be lifted upwards and emptied.
- This model contains an 8kg activated carbon cartridge for the adsorption of vapors, fumes and odors from chloride and acid.
- Acid resistant construction: Polyethylene, nylon and PVC.
- Recovery tank 48 litres (12.5 gal.).
- Acid recovery tools and accessories included.
- Accessory compartment is made from the same material as the recovery unit for extra durability and to ensure resistance to residual acids.
- Available with electric or pneumatic (air) operated powerhead.
- Also available without a powerhead, to be used as a recovery unit in conjunction with a vacuum cleaner system (on a tilting cart, model "MRAC (TC)" or on a 4 wheel dolly, model "STD (4W)")
- Cleanroom version available with stainless steel powerhead and cart
